

EDUCATION FOR PEOPLE OF ALL AGES EVERYWHERE

Education is the cornerstone to achieving Sustainable Development Goals. It allows people to emerge from poverty, reduces inequalities and creates a climate of peace and tolerance in each society.

DRÔLES D'OISEAUX, A PROJECT BY THE PAS DE CALAIS LPO

MARAI S AUDOMAROIS BIOSPHERE RESERVE

'Drôles d'oiseaux' (meaning 'odd birds') is an intergenerational project that brings together primary and junior high school students and a residential aged care facility. The garden bird introduction sessions, workshops for making nest boxes and bird feeders, plus the birdwatching and discussion sessions create a connection between the students and aged care residents.

Initially developed by the Ligue pour la Protection des Oiseaux (LPO) in the Pas de Calais, the project has since been expanded nationally. It is effectively replicable and designed to extend beyond borders.

MAB YOUTH CAMP : TRANSBOUNDARY YOUTH EVENT FOR SUSTAINABLE DEVELOPMENT

MONT VISO TRANSBOUNDARY BIOSPHERE RESERVE

Youth is a core concern for Mont Viso Biosphere Reserve. Each summer, it holds the Mont Viso MAB Unesco youth camp. The idea is to bring together French and Italian residents of the biosphere reserve aged between 15 and 18 for five days of activities and interactions in the mountains. The camp is an opportunity to work together on the biosphere reserve and promote engagement by reflecting as a multicultural group on a desirable future for the transboundary area. At the end of the five days, the young participants propose a series of projects they want to pursue.
